1020 Humboldt Parkway, Buffalo, NY 14211 | (716) 896-5200 x317 | bmscamps@sciencebuff.org

TWO DATES!

June 30 – July 3 & August 4–8

OUT OF THIS WORLD | JUNE 30 – JULY 3: \$280, AUGUST 4–8: \$350

Explore and discover the wonders of outer space this week at camp! We will learn all about planets, stars, moons, and so much more!

Please note the July session is a shorter camp week due to the holiday.

Activities adapted appropriately for each age group.

TWO DATES!

July 7–11 & August 11–15

SCIENCE SAFARI | \$350

Do you hear that? It's the call of the wild—and it's coming from the Buffalo Museum of Science! Come learn about the animals we share our planet with at this fun and engaging summer camp!

Activities adapted appropriately for each age group.

TWO DATES!

July 14–18 & August 18–22

MAGIC AND MONSTERS | \$350

For millennia, human beings have created stories to explain the things around them. From natural phenomena to feats of imagination only the greatest storytellers could create, we are diving into all things mythical this week!

Activities adapted appropriately for each age group.

TWO DATES!

July 21–25 & August 25–29

SCIENCE: IMPOSSIBLE | \$350

This is a message from the Buffalo Museum of Science. Your mission—should you choose to accept it—is to attend Discovery Camp and learn about all sorts of super-spy science. Learn about fingerprinting, invisible ink, and how to become the world's greatest spy (citation needed). This message will self-destruct in 5...4...3...2...

Activities adapted appropriately for each age group.

TWO DATES!

July 28 – August 1

SCIENCE EN VOGUE | \$350

Calling all artists! This week we will explore the science of art and fashion! Textile creation, color theory, and how the brain perceives things all come together to create something incredible. Designers, make it work!

Activities adapted appropriately for each age group.

TWO DATES!

June 30 – July 3 & August 4–8 (G6–8 ONLY)

AEROSPACE DISCOVERY CAMP

JUNE 30 – JULY 3: \$200

AUGUST 4–8: \$250

HALF DAY CAMP RUNS 12–4 P.M.

During this afternoon summer camp, students will learn about space entrepreneurs and tech leaders and how their companies lead the way in space exploration and research. Students will learn about rockets, space travel, building space communities, RFID and computing in space, space tourism, living in space, asteroid mining, and using AI and robotics. Students will be encouraged to problem solve issues related to space travel and come up with creative solutions for how to increase the public's understanding of space exploration.

Please note the July session is a shorter camp week due to the holiday.
